

Use of Photo and Video Footage

Being a film education company all the children in the workshops will be involved in making films, taking pictures and using cameras. Whether in front of or behind the camera will take from time to time take photographs and/or video footage of students during performing arts lessons and filmmaking lessons. This is for the purpose of evidence for assessments such as Arts Award and for the generally filmmaking process, students will also be able to review themselves performing and record their achievements.

From time to time we may also like to publish some of the images and/or videography captured during lessons for the purpose of promoting The Academy. These images may be used on The Scribble Box's website, Facebook and Instagram pages and on leaflets and posters.

We will never identify children in any way at all when using images for promotion and will only use images of your children for this purpose with your consent, which you can indicate by ticking the relevant box on the registration form. You have the right to change and/or withdraw your consent at any time by contacting us.
