

## **Copyright and Fair Use Statement**

Under section 107 of the Copyright Act of 1976, allowance is made for “fair use” for purposes such as criticism, comment, news reporting, teaching, scholarship, education and research. Fair use is a use permitted by copyright statute that might otherwise be infringing.

This site may contain copyrighted material the use of which has not always been specifically authorized by the copyright owner. We are making such material available in an effort to advance understanding of environmental, political, human rights, economic, democracy, scientific, and social justice issues, as well as educational purposes.

We believe this constitutes a ‘fair use’ of any such copyrighted material as provided for in section 107 of the Copyright Law.

We will not claim any copyright work as our own and will always credit work of others in our films. At times effects, music, and green screen overlays may be used to educate and teach the children about such tools. These will be for education purposes and the creator will always be credited.
